Editor's father dies suddenly at Gravenhurst

The father of the publisher of the Stirling News-Argus, Alfred W. Jones, Gravenhurst, died suddenly of a heart attack at his home Tuesday morning. His wife found him in bed when she awoke. He was in his 80th year.

A resident of the town for the past 30 years, he was formerly a sergeant on the police force for 12 years and Justice of the Peace for another 12 years following his retirement. Prior to police service he served with the Veteran's Guard during the Second World War, and farmed in the Niagara peninsula prior to moving north in 1941. He also served in the First War with the 71st Battery, Royal Canadian Artillery.

He is survived by his wife, the former Sarah Eleanor Lynes, who is presently living at home. She had been a patient in the Ontario Hospital at North Bay since 1969,

and this fall was well enough to come home to celebrate their 49th wedding anniversary, and be together for Christmas. Their son Lymis is the only other survivor. Mr. Jones was predeceased by a brother John in 1940, and a sister Mary in 1969.

In private life, Mr. Jones was a member of the Orange Association since 1914, becoming a life member in 1964. He served in all branches including county master of South Muskoka. He was also a member of the Royal Black Knights and was county registrar for some time.

A member of the Presbyterian Church, he was semi-retired as an elder, being former clerk of session.

At press time funeral arrangements had not been finalized. Mr. Jones is resting at the Cosby Funeral Home, Gravenhurst.

Mrs. Ralph Gay wins free trip to Nassau

Christmas 1972 will long be remembered by the family of Ralph Gay, R.R. 2, Stirling, for two reasons, one very pleasant and one not so pleasant.

The nicest part of the news was that Mrs. Jean Gay was the winner of the trip to Nassau, sponsored by the Stirling Merchants Association. Reeve Robert Anderson pulled her name from the 20,000 entries late on the evening of December 23.

The news, telephoned by Eugene Burrell, came as the bright spot of the evening in more ways than one, as the Gay's had invited nearly two dozen people for dinner, and just about the time things would have been simmering nicely on the stove, the power went off for three hours. Dinner was eaten by candlelight.

The Gays have decided they are going to take the trip to Nassau, likely at the end of February. They will fly Air Canada from Toronto to Nassau, have a week's lodging at the Montague Beach Hotel, plus a tour of the island all included in the tour price. Arrangements are being handled through Roluf's Travel Agency in Belleville.

The contest, which was begun Thanksgiving Week was a complete success. There were 15 participants in the promotion, and all comments were highly in praise of it. It was considered more successful because a local person was the winner.

The winning ticket was on a form from Bird's IGA Market and Harold Bird also presented the couple with a \$25 cheque in addition to their prize.

Pentecostal Church has new pastor

In addition to his pastoral duties, the new minister teaches music at Brockville Bible College, and also tutors a number of students privately. His three sons, John, David and Matthew minister with him in quiet work and special music during church services.

The new pastor and his family extend a cordial invitation to all to attend services Sunday morning and evening at the church located at 289 Front Street West, Stirling.

Senior Citizens hold meeting

I guess we slipped a cog in reporting Senior Citizens activities, because there was no paper last week. We did meet and the highlight of that meeting was that there were two birthdays announced. Ernest Broadworth and Clarence Fitchett. Helen Fitchett baked a cake for Clarence and it was big enough to feed the whole gang of us. John and Annie Holmes had enough ice cream for the occasion and we all enjoyed this afternoon lunch. I guess Christmas was too much for several as we only had about 24 present last Thursday. Ernie Munro and Harry Jeffries were kind enough to furnish the lunch which was much enjoyed.

UP AND AWAY TO NASSAU!

Mrs. Ralph Gay, R.R. 2, Stirling, is the lucky winner of a free trip to Nassau, compliments of the Stirling Merchants Association which held a free draw during the last several weeks of 1972. Doug Bird of Bird's IGA,

Mount Pleasant

(By Mrs. Percy MacMullen)
On Christmas Sunday morning, December 24th, the junior choir rendered two selections. The floral decorations included a lovely poinsettia donated by Kay Hubble of Blenheim, Ontario, in memory of her late husband, Frank Hubble, of Ann Arbor, Michigan. Rev. W.C. Cox dedicated six new hymnaries in memory of the late Mr. and Mrs. Frank Bailey, Senior, by the family of Mr. and Mrs. Archie Bailey, in memory of the late Donald Knight by his wife Ruby and her family; in memory of the late Donald Campbell by his wife Edna and son, Mr. and Mrs. Douglas Campbell and their family.

On Sunday afternoon several members of the junior choir with their directors, Miss Brenda Williams and Mrs. Claire Knight, visited the homes of eight senior citizens and sang carols, Jingle Bells and We Wish You a Merry Christmas. They were accompanied by a few adults, Mrs. Roger Barrett, Mrs. Archie Bailey, Mrs. Marguerite McMullen, Miss Bonnie Williams and Mrs. Robert Hoard.

Richard Herrington spent a week in the Belleville General Hospital and returned to Mount Pleasant on Sunday, Dec. 24th. Mrs. Marguerite McMullen her brothers Harold, John and Lorne White and their cousin, Miss Mildred White, spent Christmas Day at Eldorado with Mr. and Mrs. Ray White and family.

Miss Annie Holmes spent a few days in Belleville General Hospital following eye surgery. (Continued On Page 3)

Nursery school going full-time

Boosted by a federal government grant, under the terms of the Local Initiative Program, the Stirling Co-operative Nursery School began operation Wednesday on a five day week basis.

The school was awarded a grant in excess of \$12,000 last month, enabling it to operate on a full-fledged basis until the end of May.

Classes are held both morning and afternoon in the Sunday School section of St. Paul's United Church.

Program administrator is Mrs. Elizabeth Staples while the teacher is Mrs. Karen Bock and assistant teacher, Mrs. Margaret Kemp. Transportation is provided by Kenneth Bock. The school also will require a part-time janitor.

Enrolment has jumped substantially since the announcement of the grant which enabled the school to reduce parents fees as well as to provide transportation for many of the pupils.

Then our horizons broadened at the Department of the

Environment merging with the Ontario Water Resources Commission to form the Ministry of the Environment - one team to work together on all aspects of pollution control.

With the merger came a new Minister, the Hon. James Auld and a new deputy minister, Everett Biggs. Mr. Biggs represented Ontario at the United Nations Conference on the Human Environment, the major environmental event of the year.

The air in the cities is getting steadily cleaner, and Lake Erie and Lake Ontario have definitely turned the corner on their way to recovery. Just a few weeks ago, Toronto's Harbor Commissioners cheerfully announced that fish life was returning to Toronto's waterfront.

And, while pollution control systems are well under way in Sudbury, Environment Ontario has just begun a comprehensive look at the environment in that area - a study project on a scale that has never been attempted before in the world. Environment Canada has been invited to join that detailed project.

There are literally hundreds of other things I could mention without even beginning to cover 1972.

But that was last year. Just wait till you see what's coming next.

The Meathheads sure threw those bell ringers into confusion this week. You'd have thought that at the Christmas party the Belles would have rung the loudest, but no go. Lorna Wrightman's Meathheads had the highest overall total of the day. Lorna had high single of 264, plus a 244, then the high triple of 633. They took all 7 points and left the Belles all (w) rung out at 0. Bessie Hewton's Dingbats scored 5 points leaving Mildred Fraser's Dingalings dinging a minor 2.

Other 200 games were rolled by Betty Hubble, 241; Helena Costing 217 232; Ruth Glover, 231; and Ruby Tompkins, 203.

Barb Noble is still holding high average at 183.

During the afternoon, coffee, fruit loaves, pickles and cheese were enjoyed by the ladies.

Three lucky draws sent Betty Hubble, Helena Costing and Ruby Tompkins home each with a fruit cake.

The gift exchange brought the afternoon to a very cheery ending.

Mr. and Mrs. Art McConnell, Kevin and Marty, Mr. and Mrs. Tom Smith and Mr. and Mrs. Basil St. Pierre and Laurie were Saturday evening dinner guests of Rev. and Mrs. John May and children.

Mr. and Mrs. David Harry and Mrs. and Mrs. Art McConnell, Kevin and Marty were New Year's night dinner guests of Mr. and Mrs. Basil St. Pierre.

On Boxing Day Mr. and Mrs. James Mumby and family entertained Mr. and Mrs. James Sperry, and Lloyd Moore of Bonarlaw; Mr. and Mrs. Gerald Fitchett, and Miss Blanche Gibson of Campbellford; Mr. and Mrs. Walter Reid and George of Stirling; Mr. and Mrs. Ross Fitchett and family of Port Elgin; and Mr. and Mrs. Lynn Mason and Derek of Agincourt.

Mrs. Ann Ackers of Victoria Street spent the Christmas holidays with her daughter and son-in-law, Mr. and Mrs. Richard Richardson in River Valley.

Mrs. Ann Ackers of Victoria Street entertained her daughter and husband, Mr. and Mrs. Gerald Richardson of River Valley, and her granddaughter and family, Mr. and Mrs. Gunter Wuster of Batavia on New Year's Day.

Merrie Bowlers

On December 27 for the first time this year Ruby Tompkins took a whack at the high single with a 259. Ruth Glover rolled the high triple of 632, having two singles of 244 and 207. Ruth still holds high single and high triple of the year at 289 and 699. The other bell ringers are finding it hard to come up to those figures. Barb Noble is still holding high average at 183 and that's a mighty difficult combat.

Other over 200's were rolled by Isobel Hutcheon, 205; Tillie Prest, 212; Dilly Montgomery, 207; Betty Hubble, 200; Helena Costing, 207; Doreen Ackers, 225.

The team standing has changed again. Everyone's gotten into the groove. However Isobel Hutcheon's Belles can't get off the same tune. For four weeks they've rung a 50. Maybe someone's taken the strikers out of those Belles. Suppose? Bessie Hewton's Dingbats, wouldn't you know, got 7 points and climbed to the top at 61. Those Meathheads of Lorna Wrightman's with only 2 points, pushed their way up to 47. There's just no holding 'em. Maybe spare ribs has become their diet. Mildred Fraser's Dingalings got 5 points moving them to 38. We think Mildred has them jingling in key now.

Do You Remember?

25 Years Ago

Last year's council of Lee Grills, Carman Frost and Harry Morrow were re-elected at the municipal election held in Stirling Township on Monday. There was no election for reeve or deputy reeve with Reeve Fred Campbell and Deputy Reeve Ben Blecker being returned by acclamation.

Word has been received here of the death of Mrs. Sidney Bennett, wife of Sidney Bennett, former editor of the Stirling Leader, at Montgomery, N.Y., on December 30th. The late Mrs. Bennett was a native of Marmora and was in her 76th year. She is survived by her husband. Burial took place in Montgomery, N.Y.

The January monthly meeting of St. Paul's Women's Association was held on Tuesday evening, January 6th in the Community Hall with a splendid attendance. The meeting was featured by a lovely display of Spode China and an illustrated lecture given by Mrs. Ian Davey, representative of the Spode China of Canada.

65 Years Ago

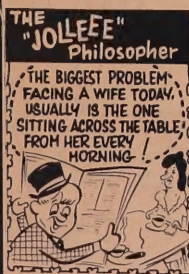

Grand Patriarch Joseph Powley of the Grand Encampment of Ontario assisted by G. Sentia, W.F. Ashley, of Madoc, made their official visit to Stirling Encampment No. 80 on Thursday evening last.

In Sidney township the following nominations for reeve and councillors were made: For reeve - Geo. Nicholson and Stanley T. Vandervoort. For deputy reeve - A.S. White and Chas. Ketcheson. For councillors - Frank Knight, Alex Nugent, Fred Mallory and Newton Bird.

Mr. Wilnot Vandervoort, with his wife and daughter, arrived here from Brandon, Man., on Saturday last. They were unfortunately in the train wreck on the C.P.R. at Kenora and lost all their travelling outfit, the baggage car taking fire, and their trunks, along with all others, were totally destroyed.

From Rawdon township we have been unable to obtain a full list of those nominated for municipal honors. We understand that Wm. Rodgers and Geo. Burkit are candidates for the reevehip. Mr. W.W. Dracup was elected deputy reeve by acclamation. Since the above was in type we learn that the candidates for councillors are Geo. A. Eggleton, Thos. Montgomery, Philip McConnell, J. Moore and P.J. Scrimshaw.

LETTERS TO THE EDITOR

The Editor
Stirling News-Argus

Dear Sir:
I am writing in response to your recent article, "Ban on snow dumping same," in the edition of the Stirling News-Argus. The article concerns the banning of snow containing pollutants being directly disposed of into our lakes and rivers.

I fully agree that snow taken from the roads should not be allowed to be dumped in our waterways. We have to try to keep them clean today for tomorrow will be too late. Would it not be possible to dump the snow in the garbage dump at Stirling?

In this way the remains left from the snow will not enter and harm our water.

I believe people should be concerned about this article and not pass it off until another day. This is a problem everyone should fight.

Sincerely yours,
Janice Webber,

The Editor
The Stirling News-Argus

Stirling, Ontario

Dear Sir:

I saw an article in a recent issue of the Stirling News-Argus and I was interested in it. The article was entitled, "Ban on snow dumping same." It concerned the dumping of snow into our rivers and lakes. The snow taken from the roads may contain a high concentration of suspended solids, dissolved salts, organic and nutrient materials and other contaminants, which are polluting our waterways. Also included in the article was what was being done to control this.

I agree that the snow should not be allowed to be dumped in the rivers and lakes. Once our water is polluted it isn't much use to anyone.

Instead of dumping the snow in the water I think a better idea would be to dump it in old abandoned gravel pits where it would not cause any damage. These pits would gradually be filled in, leaving the land with a better appearance.

By putting this article in the newspaper it makes people aware of what damage is being done by the snow deposits. If other people were concerned they might suggest some ideas as to how to eliminate this problem.

Very truly yours,
Karen Meeks,
Student,
Centennial Secondary School

Spring Brook WI meeting

The hostess for the December meeting of Spring Brook W.I. was Mrs. George Williams. The meeting was opened with the singing of The Queen, the Opening Ode and the Mary Stewart Collect.

Mrs. Myrtle Cassidy and Mrs. Clayton Burkit prepared and served foods that had apples as a base ingredient. At the beginning of the meeting a spiced apple drink was served.

The roll call verse from a Christmas card was well responded to. Mrs. Clayton Burkit gave a reading on the many ways apples may be used. The mixing of an apple meat loaf was then demonstrated by the ladies. While the meat loaf was baking, the Christmas program was presented with Mrs. G. Williams in a poem.

"The priceless gift of Christmas" was read by Mrs. Lorne McIntyre. Mrs. James Spry gave a humorous reading "Is there a Santa Claus?" Mrs. Williams read an inspiring article by Tom Dooley "About Christmas".

Mrs. Wm. Barlow then conducted a "scrambled Christmas" contest. Happy Birthday was sung to Mrs. Williams. Mrs. Myrtle Cassidy, and Mrs. Arthur Reid. The minutes of the November meeting and the correspondence were then read by Mrs. Barlow. A short time of business followed. It was decided that the January meeting would be held at Mrs. Barlow's home January 30 instead of the 31. Pennies were collected for the friendship fund.

Christmas gifts were exchanged. A delicious buffet lunch was served by the hostess, which included the food arrangements that had been prepared by Mrs. Cassidy and Mrs. Burkit for the demonstration.

Booth - Maxwell

On Saturday, October 21, 1972, at 2:00 p.m. in Grace Chapel, Stirling, Betty Ann Maxwell, daughter of Mr. and Mrs. Orvel Maxwell of R.R.1 Stirling, was united in marriage to Mr. Douglas Allen Booth, son of Mr. and Mrs. Robert Booth, Scarborough. The groom's father officiated at the ceremony.

Miss Barb Vardy was the organist accompanying the congregation in hymn-singing. Given in marriage by her father, the bride wore a floor length empire-waisted gown of brocade satin with rounded neckline and long sleeves trimmed with lace appliques, with the skirt extending into a train. She wore a three-tiered full length face veil trimmed all around with lace appliques caught up to a Juliet cap. She carried a white Bible with pink sweetheart roses.

The maid of honour, Miss Joan Morrison, of Hastings, wore an empire style gown of wine velvet with high neckline and leg of mutton sleeves.

The groom's mother assisted wearing a long-sleeved street-length dress of sea green chiffon with backdrapes matching accessories and a corsage of yellow sweetheart roses.

For the wedding trip to Montreal, Quebec and points east, the bride wore a two-piece, green and brown checked wool suit with matching accessories and a corsage of yellow sweetheart roses.

Mr. and Mrs. Douglas Booth now reside in Scarborough. Prior to her marriage, the bride was honoured at a linen shower given by Miss Stephanie Cheslik, a miscellaneous shower by Miss Ruth Bates, a shower given by Miss Joan Morrison and a community shower given by Mrs. Wayne Reid and Mrs. Jim Rainie.

In this year some may face problems and temptations more than ever before. Our Lord promises strength for the future. He promises strength for each day if it comes. He promises His supporting presence. You don't have to live the whole future at once, just a little at a time.

Allister MacOdrum made good sense when he wrote: THIS YEAR BELIEVE IN YOURSELF. You are marvelously endowed. Your family - Create harmony by truth and cooperation.

Your job - All honest work is sacred. This day - Every minute is an opportunity for doing good.

Uprightness - You can't go wrong doing right. Neighbours - You can't have too many friends. Your decisions - Consult God first, then go ahead. Your health - Consult your doctor, obey health rules; eat sensibly. Your church - Encourage others to attend by attending. The Now - Yesterday is past recall, tomorrow may never come. God's promises - "I am with you always." He never fails. God's mercy - If God forgives you, you can forgive yourself. Try again tomorrow.

Reeve outlines major projects for Village

All members of the 1973 Stirling Council called for cooperation and harmonious decisions during their brief remarks at the inaugural session Monday night.

Reeve Robert Anderson, becoming his second term as chief magistrate, outlined what he felt were the major problems facing council in the coming term, and especially in 1973. These included the extension of the sewer treatment system, including construction of a 12 acre lagoon and extension to certain existing sewer lines, which he hoped could be at least begun this year; renovation work at the Wells Ford Mercury Sales Ltd. premises, once council obtains occupancy after August 1; formulation and passage of the zoning bylaw to complement the recently adopted Official Plan; discussions about regional government and its implications for Stirling; the possibility of more senior citizens housing; study of the future need for a new arena in the village.

The Reeve commented on the capable assistance given by Clerk-Treasurer W. L. Pollock, and said when council asks for advice "he won't lead you far astray." This same sentiment was voiced by all others who spoke.

Stirling's newest elected official, Deputy Reeve Edward Klompaker, echoed the Reeve's sentiments and stressed the fact that once decisions are made in council, debate should end there, and

all go from the meeting with a united front. He said he had enjoyed his previous two years in municipal life, and hoped the next two would be worth while.

Maurice Faulkner, senior councillor, and returning to a full term after completing the term of retiring Douglas Bensley, said that he enjoyed the work, and paid tribute to the work of the Reeve and Clerk. He also hoped all could work together, and leave chambers happy after the meetings.

1973 COMMITTEES

Walling - Andrews

St. James the Minor Roman Catholic Church, Stirling, was the setting for the December 26th wedding of Peter Michael Walling and Laurene Andrews. The bride is the daughter of Mr. and Mrs. Frank Andrews, R.R. 3, Stirling, and the groom is the son of Mrs. Dorothy Walling and the late I. Walling of Trenton.

For the wedding, the church was decorated with a Christmas scene and poinsettias, with wedding and Christmas bells and streamers. Solos were sung by Mrs. H. O'Neill of Trenton, and the organ accompaniment was played by Mrs. Marie Rose of Trenton. Given in marriage by her father, the bride wore a full

length gown of white imported sheer, embellished with velvet flowers. It was A-line styled with a Peter Pan collar, double rows of ruching down the front and centered with covered buttons. Her full sleeves ended with ruching and buttons. A matching hat with open crown and velvet streamers completed her ensemble. Her bridal bouquet was of deep red roses and holly.

The bride's sister, Mrs. Wendy MacLeod, was matron of honor, and wore a full length princess style gown of red carnation DeBall velvet with a yoke of white chintilly lace. The sleeves were in lag of mutton style, and matching shoes completed her outfit. Her bouquet was red-tipped white carnations, with holly and Christmas bells.

Mrs. Franklin Lemoine, Mrs. Marsha Wassilyenko, sisters of the bride, and Miss Judy Walling, sister of the groom, acted as bridesmaids. Their gowns were identical to the maid of honor and their corsages were white carnations with holly and Christmas bells.

Randy Castellari of Toronto was best man and ushers were Charles McGregor, Tim Howard and Robert Andrews. The latter is a brother of the bride.

The reception and wedding breakfast were held at Island Park Marina. The bride's mother received the guests wearing a full-length A-line Lane gown with empire waist, brown velvet bodices and full length puffed sleeves. She wore a corsage of yellow roses to complete her ensemble.

The groom's mother wore a dress of full length purple crepe with V-neck and matching applique lace up the front and under the bodice. Her corsage was of pink roses. For a short wedding trip to points east the bride chose a travelling costume of wine crimplene, two piece, old-fashioned style shirt, decorated with a cameo and brooch.

Out of town guests were in attendance from Gary, Ind., Ontario, Peterborough, Toronto, Belleville, Trenton, Tweed, Smithfield, and the provinces of Alberta, Manitoba and Nova Scotia. On the return the couple will reside at Maxfield Trailer Park, Trenton, Ont.

On Sat., Jan. 5th this league started off well attendance-wise with only one bowler failing to bowl off. This once again proved that attendance is the main factor in winning points as every team won a game. The closest games were those between the Strikers and the Hot Stuff with the Strikers getting the odd point for total pinfall by just 8. Points are Strikers 47; a three-way tie for second spot with the Go Getters, Centre Pins and the Triumphs at 41, Hot Shots 38 (you are going to have to fill that vacant spot on your team to stay up there), and the Chargers gaining at 29. BANTAM - Margaret Wilcox and Cheryl McGee are still sharing high average honors at 125. Margaret bowled high single of 160 and double of 262 but Cheryl was right there too with games of 128, 125 (253) double.

A new name came up for the top single and double in the boys, with Mark Montgomery bowling 162, 112 (274). Greg Gozard is still way out in front for high average at 127. Other good games were Annie Bonini 154, 102; Douglas Royce 138, 117; Richard Sca 149, 93; Marianne Flieler 122, 120; Greg Gozard 119, 111; Brian Clements 112, 99; Stephen Barrie 128, 107; Sandra Edgar 100, 93; Stephen Wilcox 123; Don Boersma 132, 81; Jane Porritt 104, 95; Robert Jackett 88, 82; Janet Aude 92, 77; Janice Sca 89; Joyce Sca 81; Gerry Aude 96, 89. JUNIOR - Suzanne Jackett bowled games of 174, 169 (343) to raise her average 2 points to 145 and take over the lead by 3 points. For the boys Rodney McKeown had high single with a 224 game; but Ricky Clements had high double of 345 (181, 164) and kept his high average steady at 197. Other good games were Paul Sca 192; Robby Clements 172;

This week's scores are the beginning of those going up on the "Four Steps to Stardom" tournament score board. These are continued for four weeks to determine who advances to the second step - the Zone Round.

4 THE STIRLING NEWS-ARGUS, Wednesday, January 10

Appreciation

Words cannot adequately express our thanks for all the assistance that was given last week during the emergency caused by the sudden death of the publisher's father, Alfred Jones of Gravenhurst. While such occurrences are normally met with co-operation beyond what one expects, the fact that a paper was published is due entirely to the work of several people.

We wish to express our thanks primarily to the Tweed News, and publishers Robert Hanna and Clyde Bell, for allowing Eldon Kemp to return to Stirling and compile the News-Argus. This we know, put extra strain on their work, and at the same time shows what happens in such circumstances.

To the staff of the News-Argus, who came to the rescue, and performed numerous tasks, some of which may have been unfamiliar, go added thanks. Some might say that this was expected, but nevertheless, such efforts make such times less worrisome.

Do You Remember?

25 Years Ago

Naming of standing committees for the year, making appointments to the various municipal bodies and discussion of routine matters marked the inaugural meeting of Village Council on Monday afternoon. Reeve Harold Wells occupied the chair and Councillors E.C. Bailey, W.R. Elliott, Ashley Brooks and Guy Bradshaw were in attendance.

Work on the transmitting tower in connection with the new Provincial Police Communication System on Mr. Walter Lindenfield's farm is being rushed to a finish with the arrival of workers on the steel tower. The different gangs have kept things lively for several weeks and everything is now practically complete. Power lines up, and with the 200 ft. tower in place, the equipment will probably be installed before too long. And then - you'd better be good!

Mr. and Mrs. Everett Cook and Evelyn were Sunday guests of Mr. and Mrs. George Snarr, Hoards.

65 Years Ago

A carnival is to be held at the rink next week.

Miss Vita M. Bailey successfully passed her examination at the Pictou Model School, and has been granted a certificate as a qualified teacher.

The I.O.G.F. of Wellman's Corners will have an oyster supper on the evening of Jan. 22nd.

On New Year's Day Mr. and Mrs. J.T. Belshaw entertained their children, grandchildren, and a few personal friends. Twenty-two sat down to dinner.

The quarterly communion service will be held in St. Andrews church next Sunday morning. Preparatory service to be conducted on Friday night at 7:30.

Every day 15 million letters are delivered in Canada.

Sportsmen on ice...

Every spring and through early summer, litter and debris washes up on the beaches of some of our most popular lakes.

If you see the lake only in summer, you would wonder where it all comes from. If you visit it in winter, you'd know.

Some of the dedicated sportsmen, who ride snowmobiles across the ice in sub-zero temperatures and spend days crouched over a hole ice-fishing, are not dedicated enough. In far too many cases, the garbage they accumulate gets left behind.

As if that weren't enough a remarkable number of ice-fisherman revert to sanitary arrangements that are primitive to say the least.

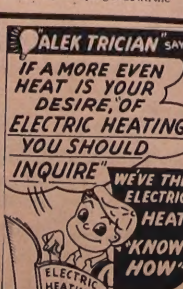

And there are always a few fishermen who through forgetfulness or through the press of business demands on their time, don't get back to the ice in time to take their fishing huts off before the thaw.

Ontario's Ministries of the Environment and Natural Resources are trying to reach all the sportsmen who enjoy our lakes in winter with a reminder that they have a responsibility to clean up after themselves.

The message is simple enough - Keep garbage bags in ice fishing huts and litter bags on snowmobiles and use them. And if there is no handy public toilet keep a portable one at the ice fishing hut.

Summing it up, Environment Minister James Auld said: "What you leave on the ice this winter washes onto the beaches next summer. So leave nothing behind but your tracks."

It's a simple matter of consideration for others. And it's not enough to get trash and sanitary waste out of sight by dumping it down the

Merrie Bowlers

Most of the bell ringers got the new year off with a big bong.

Isobel Hutcheon must have gotten the strikers in those big "Belles" repaired 'cause they swept the whole 7 points upped to a 97 total. Mildred Fraser is having trouble with her Dingalings. They must have their lings crossed with their dings to let the Belles rub them that way. They're still holding last weeks total of 38. Some one of these days they'll break loose like the

Mealheads did. Guess Lorna Wrightman fed "them" all turkey for Christmas and they're still flying. They've chalked up 53 points, got 6 this week leaving Bessie Hewton's Dingbats finding it hard to divide up 1 point.
We have a new high single this week. Betty Hubble, who rang up a 235 game, also the high triple of 829. Others gaining over 200 were Lillian Aruckle 205, Barb Noble 226, Isobel Hutcheon 230, Flo Parsonson 214, Ruby Tompkins 213.

ROBERT FALLIS, LEFT, DAVID DUFFIN DISCUSS DEAL

A Stirling business in operation for over 40 years, Stedmans Dealer Store, has been sold to Robert G. Fallis, formerly an employee with the Stedmans head office working out of Toronto.

The furniture store was started in 1931 by Dave Duffin's father, and the son took over in 1950. In 1965, he

bought out Harry Francis, who owned the Stirling 55-100 Store. The two businesses were merged two years later. Besides his wife Evelyn, the Duffin family includes Janet, in school at Kempenfelt; Allan, working with the Lennox and Addington School Board; and James, employed as an engineer

with Hastings County. The new owner of the Stedman store, Robert Fallis, spent about 15 years in the computer business, including five with his former employer, the Ontario Hydro. He has a keen interest in photography and golf. His family consists of his wife Joan and son Stephen, aged seven months.

Sidney Council '73 appointments

Sidney Township Council became official last week as each member was sworn into office, and Gordon Wilman took over as reeve of the municipality.

With little fanfare, members of council, all incumbents with the exception of Ernest Kells, repeated the oath of office, each holding the same bible. Mr. Kells is a former reeve of the township.

There were no spectators for the swearing in. Sidney council now stands with Gordon Wilman as reeve, Glenn Meyers as deputy reeve, with councillors Ernest Kells, Hadley Richardson and Peg McCurdy. Hugh Lyons remains township clerk and Bob Vandervoort is treasurer and

tax collector. These last two are not elected positions.

Appointments to committees was a major item on council agenda during last week's 11-hour meeting.

Representing the township on the Quinte Planning Board will be former reeve Jack Bush, councillor McCurdy, Reeve Wilman and alternate representative is deputy reeve Meyers.

Reeve Wilman will serve as industrial contact for the township.

Deputy reeve Meyers has been appointed as representative to the Lower Trent Region Conservation Authority and councillor Kells will represent council on the Moira River Conservation Authority.

Hold family bowling meet

The Annual Youth Bowling Council Family Twosome took place at the Stirling Bowl-O-Drome over the last few weeks in order to allow the 28 bowlers and their partners to take part. The bowlers are divided into groups according to age, male or female bowler, and male and female partners. Each Y.B.C. bowler is given his regular league handicap and their partners were also given a handicap based on their league average or if not a league bowler the female handicap was based on a 150 average and the male handicap on 175 average. We were pleased to see so many parents out even though they do not bowl on a league and some had never bowled before. The children really appreciate this.

The bowlers in each group and their scores are as follows:

Village seeks new foreman

A major re-alignment in the village's employee situation was implemented by council this week, prior to passing the hiring bylaw for 1972.

Principal change is the position of street foreman which is now open and advertisements will be placed for two weeks to invite applications for the position.

Frank Broekema will be retained as part of the staff and

will continue in his capacity as bylaw officer, Harold Morgan, currently on sick leave, will also be retained.

As part of the change, the town staff will assume caretaking of the cemetery, which has been done separately. With the increase asked for by the cemetery caretaker and the money being paid out in additional part time help required, most of a man's salary was accounted for anyway.

Crossing guard hiring deferred to February

The decision to hire or not to hire crossing guards in Stirling was delayed to February 5 at the regular meeting of Village Council Monday night, so a full slate would be present to vote. Councillor Maurice Faulkner was absent from Monday's meeting.

The situation was presented in detail to council by OPP Constable Brian Turner, Principal George Patton and Vice-Principal Ed Fleming of Stirling. Council had received a letter from Mr. Patton at last week's meeting requesting that adults be hired to replace the present student safety patrol system being used.

Principal reasons in favor of the change is the increase in traffic; the fact that students have no authority to stop traf-

fic; many parents object to their children being crossing guards; loss of time from school work - up to possibly half an hour per day of duty for out-of-town students; students lose chance to participate in noon hour activities; and there has been some parent pressure for the change.

Patton presented figures from the Department of Transport and Communications, which indicated that over the ten-year period starting in 1960, traffic count increased at North Street (Highway 14) from 1,400 per day to 2,378. (This count is based on the times a counter is tripped, and could be the same vehicle passing over it several times.) The Frankford

Road, (Highway 33) from 900 to 2,500 and the Belleville Road, (Highway 14 South) from 1,300 to 2,182.

Comparing the village with others in the area it was noted that both Trenton and Belleville have adult crossing guards, while Deseronto seems to be the only community of relative size in the area with them.

The point was made that the activity teaches the child responsibility, but against this is the liability factor of the children's safety that a relatively young person is responsible for.

If adults are hired, they would be sworn in as special constables, and would have the authority to stop traffic.

Mac Smith new chairman of County School Board

Mac Smith, a Belleville veteran of more than 20 years on school board, was elected chairman of Hastings County board of education for 1973 last week.

Mr. Smith has served on the county board since its inception in 1969 and is a past president of the Ontario Public School Trustees' Association. He has frequently acted as mediator in board-teacher disputes in other parts of the province.

Elected vice-chairman was Ralph Weaver of Trenton, also a county board member for the last four years.

Mr. Smith replaces Donald Williams of Stirling, chairman for the last two years. Mr. Weaver replaces the late Everett Fairman.

The inaugural meeting of the newly-elected board was

held in the offices at 208 Bridge St. East, with director of education Eric Runcres in his capacity as secretary to the board, presiding.

The invocation was given by Rev. John May of St. Paul's United Church, Stirling.

Decision on the composition of committees was deferred until the next meeting.

The board's one non-elected member, Carl Brant, was reappointed as a trustee by Chief Earl Hill of the Mohawks of the Bay of Quinte, Tyendinaga Reserve.

At the beginning of the meeting, past chairman Donald Williams paid tribute to the late Everett Fairman and called for a minute's silence in his memory.

"All of us were saddened by the loss of a friend who served with us for four years as a

fellow trustee," he said of Mr. Fairman. "There has developed a certain comradeship and fellowship among trustees and administrators that is deep and sincere. Mr. Fairman was a man who was highly thought of by the community and the electorate."

Board needs new offices soon

A new administration building and a two-year salary agreement with teachers will probably be the first items tackled by Hastings county board of education.

They were listed last Wednesday by new chairman Mac Smith in his inaugural remarks as his priorities for this year.

He said that the subject of an administrative building had been discussed and dropped in the past, but must be "one of the things we tackle in the future."

"This is an inefficient way of operating," he said of the present setup. The board now has offices at 208 Bridge St. East, on College St. adjacent to Quinte Secondary School, on Avondale Road and in Trenton.

"I'm amazed that the administration operates as efficiently as it has when we have four offices serving the needs of the children of our county," said Mr. Smith.

A two-year salary agreement was his second priority,

"This is the year for it," said Mr. Smith. "We spend too much time on salary negotiations."

Teachers' contracts are negotiated yearly, with discussions starting early in the new year and sometimes dragging on until May.

Later, Mr. Smith said the teachers had indicated interest in negotiating for a two-year contract.

Third among Mr. Smith's intentions was a planning session by the chairman's committee. The board's chairman's committee is comprised of the present chairman and vice-chairman and the past chairman. It is empowered to decide on what conventions and conferences employees and trustees can attend and who is appointed to attend them, but it can be asked to review any matter brought to it by the board.

Mr. Smith, who has often been called in by the ministry of education to mediate disputes between boards and teachers in other parts of the

province, had warm words of praise for the situation in his county.

"The thing that stands out is the way we have worked together," he said in review. "In the first four years of the Hastings county board's existence."

"We have worked out a method of involving board and administration and staff," he said of decision-making in education.

Everyone involved in education in the county, said Mr. Smith, deserves "a pat on the back for what you've accomplished."

Mr. Smith referred to "my travels of the last few weeks" mediating deadlocked contract negotiations in Sarnia and Timmins.

"Situations have evolved that led to breakdown of communications," he said of these situations. "We take it (healthy board-teacher relations) for granted in Hastings county, but we must continue to evolve means of communication."

COUNCIL BRIEFS

Stirling will not sell fire prevention to Murray Township to cover Island Park, because it has not the equipment to do so. Fire Chief Graham Mouch attended Monday's meeting and pointed out that the village would only qualify for Mutual Aid in such cases, if it has a second truck which could go to a Stirling fire, if one occurred while the first unit was out of town.

Mutual Aid is not provided to departments that are selling their services which in turn leave the seller unprotected.

The suggestion for Island Park is to have either the owner of the township purchase the minimum amount of equipment, which would perhaps control a fire somewhat until help from Trenton (which has an agreement with Murray) arrived.

A meeting will be held at the Ontario Hydro office, Belleville next Wednesday to discuss further the proposed location of a high voltage transmission line from the new generating station at Bath to Oshawa.

Council was advised that there will be a \$10,100 grant available from the Department of Transport and Communications for road work. This is broken down into \$2,700 for construction and \$7,400 for maintenance. This means up to an expenditure of \$20,200. The village will receive a 50 per cent subsidy, but any money over that figure will be totally the responsibility of the village coffers.

4 THE STIRLING NEWS-NEWS, Wednesday, January 17,

We're trying

During the past few weeks, we realize there have been delivery problems with the Stirling News-Argus. These are not problems we have created in an intentional way, but rather ones caused through adoption of a new system of printing. Like anything else that is new, there are bugs to be ironed out and systems to be improved. With the installation of the printing press at Tweed, we expected that we would have a more efficient manner, and still one that is just a matter of developing. We appreciate that the normal delivery pattern has been interrupted on occasion, and please understand we are doing everything we can to get things back on schedule as quickly as possible.

Let's end chaos

Any business operator knows that employees' wages and other benefits are the most costly single factor in his operation. They are the hardest to control, due to increased negotiation procedures, and often this leads to hard feelings on both sides, especially if the situation leads to strike action, or even a threat of it. Added to this complex item is the fact that in recent years, the federal and provincial governments have been legislating minimum wages, over which the employer has no control whatsoever, except to pay them, and also the related benefits such as Canada Pension and Unemployment Insurance premiums.

In the light of this situation, it comes as a real shock to the system to see what happened with the recent postal negotiations and the resulting conclusion report, and the subsequent vote by the membership. It seemed to clarify one aspect of our labor picture, in that there is no cohesion between union membership, leadership and bargaining units. Here was an agreement settled in presumably good faith, the union man signing the majority report, then the leadership telling the members to reject it.

Unions in this field is truly a complex thing to understand. To anyone not involved it is even more incomprehensible. As a result it makes for bad feelings when members are offered a twenty-dollar plus increase over two years, then are told to reject it when voting.

During the recent federal election, employment and related factors were supposed to be a major campaign issue, and certainly we heard enough about it, if the government feels strongly enough that something needs to be done, let's get busy and do something.

As a first step, it seems there should be a spelled out, by federal and legislation if needed, negotiation and conciliation process. Immediately may say there is, There may be, but at present it is too lengthy, costly, and difficult to comprehend.

The natural first step would be a meeting between union and company at a maximum stated period prior to contract expiry. If after reasonable discussions, and possibly strike action, things were not settled, the conciliation process would be invoked. Once this stage is reached, there should be certain definite steps understood.

First, the union should give the leadership authority to strike as it does now, but at the same time, it should approve conciliation, and even binding arbitration. It is expected the union would select capable representatives to meet with management's similarly selected people. Once these men have hammered out a mutually accepted agreement, it should be either on both sides, or go to a vote, but clearly defined for the members.

If the agreement is supported by the union representative, there should be endorsement by the leadership and seek membership approval. It seems ridiculous to spend many hours settling a dispute, which seems fair to all concerned, only to have the leadership tell its members it is good. The union leaders are usually well-paid for their efforts, so once the members have given a directive it should be carried out.

Over the past fifty years, unions have immeasurably improved the lot of the working person. There have been instances of abuse on both sides of the fence. Presuming our education system is producing graduates with reasonable intelligence to discern what they want, let's give them the chance, and quit changing courses in mid-stream.

There is a natural desire for the wage-earner to want his maximum pay, but this must also be tempered with what the employer can reasonably expect from revenue and realize in profit on his investment. There must be a better way than we have now, and if both government and opposition would spend some serious negotiating time developing such legislation, it might remove much of the distrust and unproductivity from our labor scene.

LETTERS TO THE EDITOR

Dear Sir:

Have you ever asked yourself these questions about pollution? Where does it come from? How do our lakes and rivers become so polluted? Have you ever stopped to think of the pollution in the village of Stirling?

Well, if you haven't yet, just stop for a minute and ask yourself these questions: Have I ever thrown garbage into the waters of Stirling? Have I ever thrown something in the water that will kill the living species that live there? If your answers to these questions are "no," then you are not guilty of pollution our lakes and rivers.

If readers are concerned, I

would suggest they read the article by Bill Dodds which appeared in the December 6 edition of the Argus, entitled "Keeping it Clean."

I agree with this article because it shows the people how easily pollution can be caused. It may help people, if they read it, to understand how they are pollution our lakes and rivers. It will also help them to understand how they are destroying the usefulness of the water. I think that all people in Stirling and elsewhere should read this article so they can help protect our lakes and rivers against pollution.

I hope that all the people of Stirling will join others in helping us protect our lakes and rivers.

Yours sincerely,
(Miss) Dianne Fox,

Do You Remember?

25 Years Ago

At the regular meeting of Stirling Branch of the Canadian Legion held on Tuesday, January 16th, 1962, plans were discussed for the arranging of a skating Carnival to be held February 11th at the local arena. Following this and other business matters the members settled down to a cribbage tournament in which some of the novices at the game appeared to have the edge on the more experienced players.

The annual reorganization meeting of Stirling Hydro-Electric Commission was held on Monday night, with chairman Roy Eggleton presiding. Mr. Bruce Bell, newly elected commissioner and Reeve H.J. Wells, who is the third commissioner by virtue of his office, were present.

The annual meeting of Mount Pleasant Rawdon Congregation was held at the Church Hall on Thursday evening,

January 16th, with about thirty-five members in attendance. A pot luck supper was enjoyed and the silver collection amounted to \$4.84. It cost two dollars to clear the snow out of the yard between the Hall and the Church and the balance will be turned into the Sunday School funds.

Reeve Harold J. Wells is attending the January sessions of Hastings County Council which opened in Shire Hall, Belleville, on Tuesday. Others from this district in attendance are Reeve J. Morrison and Deputy-Reeve W. Spencer, of Rawdon Township, and Reeve Fred Campbell and Deputy-Reeve Ben Blecker, of Sidney Township.

Mrs. Earl White, of Belleville, has accepted a position in the office of Mr. H.C. Martin, local Insurance Agent, and began her duties on Monday.

65 Years Ago

On Friday evening a close game of hockey was played on Stirling rink between Madoc team and the local seven. Madoc team promises to be a hard competitor this winter, which fact will be welcomed by all lovers of hockey, as it will create greater interest in the game. Stirling won by 5 to 3 and played the strongest game throughout. Neither team got down to as good combination play as they likely will when they have had a little more practice. The lights were hardly bright enough for the best of play.

A very fast game of hockey is promised tomorrow (Friday) afternoon, when the locals will cross sticks with a swift team from Campbellford. The band from that place will be in attendance.

A small blaze that might have resulted in a serious fire occurred at the residence of Mr. Jas. Ackers on Monday. One of the children got hold

of some matches and set the bedding on fire in one of the rooms, causing considerable damage to the contents of the room before it was extinguished.

On Monday night the West Huntingdon Presbyterian church was crowded to the doors on the occasion of an entertainment given under the auspices of the choir. Misses Conley and Maud Ward, Mr. Percy Reynolds and Rev. F.A. Robinson furnished the musical portion of the programme, entitled "Shadows of a Great City." Moving pictures and illustrated songs, helped to provide a thoroughly enjoyable evening.

Mr. S. G. Faulkner, of Vancouver, is visiting relatives in town.

Mrs. A.W. Andrews, of Madoc Junction, spent a day last week the guest of Mrs. Jas. Juby.

Stirling WI holds meeting

On Wednesday afternoon the Stirling Women's Institute members met at the Community Centre for their first meeting in the new year. Mrs. Everett Cooke welcomed all, then read a fitting poem for the New Year.

All joined in singing the Ode and repeating the W.I. Creed. "My favourite month of the year" was the Roll Call given with 15 members and one visitor, Mrs. Ashley Brooks read the minutes and thank you cards from members and Scott Mission.

Mrs. Tanner gave the financial statement and Mrs. Ayrhart reported for the quilt committee.

The president gave out the remaining Home and Country books.

Mrs. Tanner and Mrs. Cooke will meet the Council re business which the W.I. is concerned.

Some articles will be purchased for card parties and meetings. Mrs. McIntyre, social convener, will make arrangements for a card party January 22.

Mrs. Roy Tucker made her official visit at this meeting and spoke on the life of Lord and Lady Tweedsmuir, and their relation to the Women's Institute's reports of History, namely, Tweedsmuir History.

The name "Yukon" was first used by J. Bell of the Hudson's Bay Co. in 1846, it comes from the Indian word "Yakakut" which means Big River. Bell wrote the names as "Youkon."

Reeve's statement

Reeve Robert Anderson is again calling upon all citizens to support Minor Hockey Week in Canada, which starts Saturday, January 20th.

In announcing his support of young Canada's most important week, the Reeve suggested that the local citizenry would "do well to keep in step with Canada" by attending minor hockey games this week.

"It is our duty, and I share it with every local citizen," he said, "to show our appreciation of the efforts of those who make participation in Canada's National Sport possible for our youngsters. Minor Hockey Week is Canada's most successful amateur sports promotion, and it is our duty to see that the local observance is equal to that of any in Canada."

The Reeve pointed out that we have a minor hockey program operating here that does not need to take a back seat to any in the country, but, he said "it needs our support."

"The best way to support the program is by buying a ticket. That starts a chain of events that really supports the local program. First the money helps finance the program. Then the ticket induces us to attend, and our presence encourages the youngsters and those whose efforts are necessary to the success of the local league."

He urged, however, that our support should not stop at encouragement. The Reeve went on to say that "we must pay public tribute to the men, and ladies, who spend so many hours organizing and operating the many leagues and games for our youngsters. By their work they are providing our youngsters with an opportunity to play hockey. Out of this comes better bodies, healthier minds, better boys and better citizens. What greater reward can we hope for?" he asked.

Reeve Anderson concluded by saying "Because participation in Canada's National Sport provides healthy exercise that will improve the body, discipline that will train the mind, teach cooperation, team-play and a respect for rules, the boys are sure to benefit. When the boys benefit, the community benefits, and because the community benefits, the community must contribute. We do this best by supporting Minor Hockey Week. I can suggest no better way than by observance of the official slogan, which is, 'Don't send - take your boy to the arena,' and if you do not have a boy of your own, drop in and watch the others. I know you'll enjoy it."

Ivanhoe Women's Institute

The first meeting of the new year, 1973, was held Wednesday afternoon at the home of Mrs. Currie with a good attendance. Mrs. Dan Cooke opened the meeting in the usual way with the Institute Ode and Mary Stewart Collect. Roll call was answered with "something I know about 'Australia'". Minutes of last meeting and the correspondence was read. It was moved by Mabel Irvine and seconded by Ada Roeper that all bills be paid. Short reports were given by the convener and the collection and pennies for friendship were gathered. The remainder of the meeting was turned over to Mary Silks and

she opened with a New Year's poem and an Australian song. Margaret Haggerty gave the Motto entitled "Thoughts for the New Year, and Mabel Irvine gave a reading. Mary Silks introduced our guest speaker, Mrs. McKeown, and she showed pictures and gave us a talk on Australia which she had visited a couple of years ago. She also had different things she had brought back with her that she showed

the ladies that were very interesting. Evelyn Pollock thanked Mrs. McKeown for her lovely talk and pictures, and presented her with a gift.

The president also thanked Mrs. McKeown and Mrs. Currie for opening her home and the meeting closed with the Institute Grace. Lunch was served and a social half hour was enjoyed by all.

AN ASH FACTORY Hamilton has a new ash factory, now operating at half capacity so any mechanical bugs can be worked out.

That's right an ash factory -- it's the best way to describe the city's up-to-date approach to incineration.

The city decided on this method of waste disposal to deal with a garbage problem, because of the usual difficulties -- high land costs, community opposition, etc., -- that face urban sanitary landfills. But the East Hamilton solid waste reduction unit, or SWRU as they call it, was designed as an industrial plant rather than as an incinerator.

Trucks dump raw refuse in a pit -- 600 tons a day when it gets up to peak operating capacity -- where conveyer belts take over. The belts feed refuse to a grinder, where large metal objects are rejected and stored for sale as scrap. The pulverized refuse from the grinder is sorted magnetically to provide more scrap metal for sale.

Then the fine-ground waste is fed to two furnaces equipped with efficient air pollution controls. Here it burns down to 10% of its original volume a substantial reduction in the amount of waste for which a landfill site must be provided.

Dentistry is an open profession

The dental profession may be for you if you seek independence, are manually adept and are interested in the biological sciences.

If you are interested in providing vital services to your fellow man, being useful socially and gaining a comfortable income, dentistry could be your route. And women are invited in what has long been thought of as a man's profession.

While women in dentistry in North America are not too common, the profession is not meant for men only. Actually, dentistry is particularly well suited to a woman seeking a professional career. It can be successfully combined as a career with marriage and raising a family.

A dentist must be an employer, supervisor, somewhat of an efficiency expert and psychologist, in addition to practising the vocational aspects of dentistry. He uses his scientific and medical knowledge by compiling case records, diagnosing treatment, and being aware of signs of organic disorder.

Challenges are everyday parts of a dentist's life. They also make life interesting. Becoming a dentist could do things for you. Certainly, you could do things for society.

Both furnaces are equipped with boilers which produce steam to power clean turbines which drive incineration equipment. In addition, the steam heats the unit and controls exhaust gas temperatures for efficient air pollution control. And there is still steam left over that can be sold to other plants in the immediate future. So there are two byproducts of the ash plant -- for sale. Now if the city can only find a market for the ash which is its main product from the unit.

The Officers' Conference will be held May 1, 2, 3 at the University of Waterloo at Guelph and the usual pooling fee of \$35.00 will be forwarded.

The reports of the convenors were centered on Education and the board chairman wants a two year contract for teachers.

For consumer news, the care of snowmobile garments was given.

The Ontario Milk Producer gave ideas for milk cocktails. The P.R.O. has forwarded three more press reports to "Home and Country" and received a message of thanks on Friday, Jan. 12.

For friendship links the Christmas parcel arrived in England Dec. 28th. A letter of thanks was received Saturday, Jan. 13.

The C.A.W.W. secretary reported over \$2.00 in the December penny jar. She read a message in The Country-woman magazine from Mrs. W. Smith of the U.S.A. She told that their farm was written up in an English school book under the heading "Floral points for Geography."

ten up in an English school book under the heading "Floral points for Geography."

Mrs. Roy Bush gave a special message re The Tweedsmuir History Book and asked that the farms in the valley be written for the records. The pennies for friendship were gathered.

The roll call "A Remembrance of something that happened in Public School" gave a wealth of information re those days of yore.

Mrs. Evan Bogart opened the program with "A New Year's Wish." Mrs. Roy Tucker read a humorous selection.

Mrs. Percy MacMullen gave the topic on "The Work of the Federated Institutes of Canada in the North West Territories and the Yukon." The first institute in the North was organized by Mrs. Wm. Bough of Stratford when she and her husband were living at Haines Junction in the Yukon in 1956.

Mrs. Hough saw the vast need of a social and recreational centre where the natives could gather and enjoy health talks, garden talks and recreation. The first branch was such a success that F.W.I.C. gave Mrs. Hough permission to organize branches wherever she thought best. In 1960 she organized four branches in the North West Territories and in 1962 five others were organized. In 1963 Miss Florence P. Eadie was appointed a Field Worker in that area and she visited each branch once a year. By 1968 two field workers were appointed and the first convention was held at Inuvik, August 14-17, 1966.

Each membership in Ontario contributes 25¢ on the fee sheet to carry on this work. There is also the assistance of the government of Canada and the recent UNESCO coupon plan.

At the present time there are nine active Institutes in the North West Territories and four in the Yukon. A full list of branches and officers are published in the fall issue

of "The Northern Lights Bulletin."

There are many oil wells and mines in that area and tourists are coming to the Northland in large numbers. At present the population is around 45,000, with 6,000 Indians and over 9,000 Eskimos and the balance White people, many of them government officials and their families.

The Canadian Church calendar states, "The development of Canada's Northland has long been a dream of many Canadians. The hope now is that the discoveries of oil and other resources will benefit the Native people as well as other Canadians."

Mrs. MacMullen told of the Monster Hovercraft that was being shipped from Trenton Armed Force Base and she displayed the fall issue of the Northern Lights Bulletin and gave several items of what their various branches are doing. She said in closing, the Federated Women's Institutes of Canada are proud of their record of developing our country of Canada from sea to sea.

The convenor expressed thanks for the message.

A nursery rhyme singing game was then conducted by the convenor, followed by the Institute Grace, Refreshments followed in the kitchen, provided by Mrs. Glenn Bush and Mrs. J.L. Donohoe.

Mrs. Jack Bush voiced thanks for the program, the message on the North and refreshments.

Mrs. Herb David has returned home after visiting her daughters Mrs. Archie Harjes of Montreal and Mrs. Douglas Smith of Ottawa.

Mr. and Mrs. John Ryan spent Christmas Sunday with Mr. and Mrs. Gerard Ryan, Pickering, and Christmas week with Mr. and Mrs. Don Whelan, Barrie, and New Year's weekend with Mr. and Mrs. Allan Fisher, Oakville.

UCO elects Simcoe County man as its new President

Tyson Langman, a Simcoe County beef and hog farmer, has been elected president of United Cooperatives of Ontario, the province's major farm and urban supply, and farm marketing, co-operative.

Also elected to UCO's four man executive at the 26th annual meeting held in Toronto last week was first vice-president, Gordon Jack, of Blenheim; second vice-president, Harold Schmidt, of Baden, near Kitchener; and immediate past president, Bruce McCutcheon, of Freetown, near Dundalk.

The meeting, attended by some 400 delegates from across the province, also elected a new director to the 12 man UCO board. He is Ewald Lammerding, of Grand Valley. He succeeds Fred Hamilton, of Guelph, who served nine years on the board.

A by-law change calling for the streamlining of the big co-operative's branch control structure was approved after a lengthy discussion over an amendment to it proposed by UCO Kenway branch chairman

Thurlow Reeve

New Warden

Reeve Horace Casey of Thurlow Township was elected Tuesday as the new Warden of Hastings County succeeding Carman Gibson. His only opponent in the race was George Lyons of Deseronto.

County Council met for its inaugural session Tuesday and Wednesday at the County Building in Belleville. Stirling was represented by Reeve Robert Anderson and Deputy Reeve Edward Klompfner.

The latter was among numerous new delegates caused by the increase of electors in the townships and villages in the County last fall.

Neill McGeechay of Chatham. The amendment was defeated. The meeting reviewed the 1972 financial operations of the province-wide business, owned by the people it serves. Gains were registered in every area of operations, with the exception of grain marketing, reflecting the generally poor crop year in the province.

Biggest gains are made in store sales, livestock marketing, fertilizer sales, and poultry processing. Sales were at an all time high of \$134 million. Savings at \$1.6 million, were almost double last year's figure of \$860,000.

Outgoing president McCutcheon noted that the co-operative's capital structure was

THE STIRLING NEWS-ARGUS, Wednesday, January 17, 1973 under study, with a view to strengthening it so that it could better serve as a base for future expansion. He cited a possible link-up with the newly merged Ontario Co-op. U.S. regional co-operatives, predicted an upcoming fertilizer shortage this year. He outlined the operations of the huge co-operative, which last year had sales of \$183 million and savings of \$20 million -- some half million of which was returned to UCO.

School plans movie series

The circumstance that there is no movie theatre in Madoc has led to the decision of founding a film society at CHSS.

The plan of the society for the immediate future is to present a number of classic films.

Whereas only one short meeting is necessary to form a society, it is people, their support and enthusiasm that makes a society flourish. The newly established Film Society at CHSS extends an invitation to you all to come and view the first motion picture on its program.

1,000 attend Trenton session

Jehovah's Witnesses con-
cluded their assembly at
Trenton High School on Sunday
with an attendance of 997.

John Didur, Assembly
Chairman delivered the ad-
dress, "Is This Life All There
Is?"

Dealing with the problems
that confront the human race,
Mr. Didur said, "The questions
of this life lead many to des-
pair. Young and old often ques-
tion and reject goals for which
people have long worked.

Wealth, fame, power and
beauty last only until death. If
this life is all there is, we are
not even a speck on the scales
of eternity."

He told the audience that be-
lief in life after death was
based on man's feeling of frus-
tration at the shortness of life.

Didur said, "The Bible
gives us the sure hope of a re-
surrection. This is not based
upon what we would like to
have happen to us but rather
the facts in our eyes.

There were at least 500 eye-
witnesses who testified that
Jesus was resurrected. This
gives us the assurance of hope
after death.

"Can our life be more
meaningful now?" Didur asked
the audience. "If we have
a goal, a sense of direction,
Christian witnesses of Jehovah
know that life has a real pur-
pose. They apply God's work in
their own lives and this is re-
flected in their happy families.
They know that following God's
counsel and laws is the best
way of life. The reward for
this course of action is not
just a happier home life or
the hope of a resurrection af-
ter death. It is the hope of
surviving the great cataclysm
facing the human race, the
event described in the Bible
as the Battle of Armageddon."

Didur told the audience that
the only way anyone could sur-
vive the Battle of Armageddon
would be to let his purpose be
God's purpose, his goals
God's goals. "In that way,
life has a meaning for us. It
is not empty or fruitless, for
it leads to endless life in a
new system of things right
here on earth," he concluded.

In his concluding remarks,
Mr. Didur said that the 24 who
were baptized that morning
showed evidence of having a
real purpose in life.

Plants worth nothing con't.
Acacia - Trees and shrubs be-
longing to Pea Family, serves
many purposes both useful and
ornamental. Certain kinds
provide forage, gums, medi-
cine, tannin and valuable wood,
some of which is scented. Ac-
acias are fast growing and
certain kinds make good shade
trees. The flowers are very
tiny but numerous, packed
closely together to form fluffy
balls or short round spikes.
Propagation by seed and cut-
tings, the cuttings being freer-
flowering, and best taken from
half ripened wood taken with
heel. Use a mixture of peat
and sand and keep in a cool
temp. till rooted.

New trustee to be named

Hastings county board of education will remain one trustee short of its full 17-member quota until the next board meeting.

Trustees met for five minutes at their inaugural meeting, apparently to appoint a new trustee, but no announcement was forthcoming when they reconvened in public session.

Chairman Mac Smith said later that the decision on the appointment of the new trustee will be made at the next board meeting.

Under school board legislation, a trustee's post left vacant by death or resignation is filled by an appointee of the majority of the board. The death of Everett Fairman, who headed the trustee polls in Belleville last month, leaves the board with one vacant seat.

Minor hockey program gets big week started successfully

Stirling Minor Hockey teams didn't win very many of their exhibition games on Saturday, but considering the calibre of the teams they were playing against, all stood the battle very well.

County to hear regional planning expert in camera

Members of Hastings County Council will learn at first hand how the proposed Government setup could affect this county.

But the special session of county council called for Feb. 13, which Don Irvine, parliamentary assistant to the treasurer of Ontario will attend, will be behind closed doors.

Carl E. Bateman, county clerk-administrator, told council last week that at the request of Mr. Irvine, attendance at the special evening session would be restricted to council members, county department heads and possibly representation from Belleville and Trenton.

Under the proposal for the Cobourg-centred regional government setup, nine municipalities in the eastern part of Northumberland county would be added to Hastings County for administration purposes.

Mr. Bateman said this would mean an additional 17 members on Hastings County council and would also necessitate reorganization of all county departments.

The nine municipalities which would send representation to the meeting would be: Cobourg, Hastings, Prince Edward, Hastings, Hastings, Hastings, Hastings, Hastings, Hastings.

Other members of the Board are Mr. Wendell Camm, Treasurer, and Mrs. D. Patterson, Mrs. Wells and Reeve Anderson. The Librarians are Mrs. B. Faulkner and Mrs. W. Rodgers.

Also present for this meeting were the appointed members of the Rawdon Township Library Board, Mrs. B. Morrison, Mrs. L. Watson and Mrs. M. Hutchison. Rawdon Township has contracted with Stirling Board for library service to citizens, and thus become eligible for a Provincial grant for this purpose.

As a result, residents of the Township are now able to use the services of the Library on the same basis as the residents of the Village, that is, 25¢ for a Library card, instead of being required to pay the non-resident fee of \$3.00 per year. Students will not be asked to renew their 35¢ cards next September as previously, but will be able to continue to use the same card until it is filled.

New hours will also begin this week, on a trial basis, and we hope this will be found more convenient for rural residents. Beginning Friday, January 26th, and every Friday thereafter, the Library will be open from 11 a.m. to 5 p.m., and from 7 to 9 p.m. This should make it easier for students with permission to come to the Library during their noon hour on Fridays when they will have more time to exchange books, and should also be suitable for those who shop in the morning or early afternoon. Also, during House League Hockey season ONLY, we will be open on Saturday mornings from 10 to 12 noon. Tuesday, Wednesday and Thursday hours remain the same, 3 to 5:30 p.m.

New books are arriving again at the Library, and as well as fiction of all kinds, for all ages, we have books on hobbies, nature, sciences, history and adventure, with something to please everyone.

tion to Hastings council would be the townships of Cramahe, Brighton, Murray, Percy and Seymour with the villages of Brighton, Colborne and Hastings and the town of Campbellford.

Collectively these municipalities represent a population of 24,089 and an area of 2,288 square miles.

Mr. Bateman emphasized, however, that the current proposals were just that and that representations and objections will be heard from all municipalities affected until the end of February of this year.

While a few members said that the nine municipalities did not want to come to Hastings and that Hastings did not want them, Mr. Bateman assured that if the regional government setup came into being as is currently proposed, the additional membership in Hastings county council would be welcome.

Library Board elects chairman

The Stirling Public Library Board met for their first meeting of the new year on Monday, Jan. 15th, at which time Mrs. D. Chyppa was elected chairman for 1973.

Mrs. A. Wells, retiring chairman, thanked the Board for their co-operation during the past year.

Other members of the Board are Mr. Wendell Camm, Treasurer, and Mrs. D. Patterson, Mrs. Wells and Reeve Anderson. The Librarians are Mrs. B. Faulkner and Mrs. W. Rodgers.

Also present for this meeting were the appointed members of the Rawdon Township Library Board, Mrs. B. Morrison, Mrs. L. Watson and Mrs. M. Hutchison. Following announcement of how the Cobourg-centred regional government could affect Hastings, there was a suggestion from county officials that the possible addition of the nine municipalities to Hastings would cause "turmoil."

While a few members said that the nine municipalities did not want to come to Hastings and that Hastings did not want them, Mr. Bateman assured that if the regional government setup came into being as is currently proposed, the additional membership in Hastings county council would be welcome.

Have you noticed the big calm over town? The Belles have gone into seclusion, hushed right up. To make matters worse, the Dinghats, Meatheds and Dingalings are all crying for them. Some folk thought it was rain last week, but no, it really was the bell-ringers' tears.

Isobel Hutcheon thinks her Belles need repair but doesn't know just which fix-it shop in town handles the type. They've gone into seclusion, hushed right up. Compensation talk

(This is the third in a series dealing with various aspects of Workmen's Compensation in Ontario. Reader comment and question invited.)

Vigorous, positive effort to prevent accidents and a full range of treatment, cash benefits and general assistance to the injured worker and his family when they do occur, might be described as the basic ingredient of the Ontario Workmen's Compensation program. Just as vital, and perhaps of even more significance in the long term to those who suffer severe injury and are unable to

return to their former or similar work, is the activity of the Board's Vocational Rehabilitation Department.

Established in 1939 as an integral part of the overall system, the Department's primary objective is to return the injured worker to the work force in gainful employment suited to his skills.

The phrase "suited to his skills" sets out the guiding principle in the Department's approach to its task. It is the worker's ability, rather than any disability resulting from an accident, which is the

prime consideration in working out an individual rehabilitation program.

A workman requiring Vocational Rehabilitation may undergo tests to establish his aptitudes for a particular type of work, and of course personal preferences and interests are taken into consideration in selecting a field of endeavour.

The Department throughout provides expert counselling and guidance, and once a decision has been made, it endeavours to place him in suitable employment or arrange for the worker to receive the training required at an accredited school or training centre. If the situation warrants, arrangements are made for on-the-job training.

A workman engaged in a Vocational Rehabilitation training program received the equivalent of full compensation, plus allowances for room and board if he is attending training centre far from home. In addition, the Department undertakes full payment of the cost of tuition, textbooks, examination fees and any required equipment - all as part of the compensation package.

The Vocational Rehabilitation Department has qualified counsellors at the Board's Head Office and Hospital and Rehabilitation Centre in Toronto as well as at all District Offices throughout the province. Vocational Rehabilitation officers not only provide all assistance possible in the course of retraining but also assist the worker, with the full co-operation of industry, in getting employment once his training is completed.

Film portrays seven dangers

The snowmobile industry, through associations and individual manufacturers, is making a commendable contribution to safe snowmobiling.

The finest snowmobile safety film screened to date at the Ontario Safety League is "The Seven Deadly Sins", produced by the manufacturers of Scorpion snowmobiles. This 10-minute film vividly portrays in beautiful colour the major problems confronting snowmobilers:

1. DRINKING - over three quarters of all accidents reported involve drivers who had consumed the equivalent of two ounces of liquor shortly before the accident.
2. COLLISIONS - with motor vehicles, fixed objects and other snowmobiles.
3. UNSAFE ICE - on lakes

and rivers involving drowning fatalities.

4. RIDING RAILROAD TRACKS - with resultant collisions with trains.

5. OVERDRIVING HEADLIGHTS - travelling too fast at night to avoid unexpected objects.

6. TRAVELLING ALONE becoming lost or marooned with damaged machine.

7. LOOSE CLOTHING - becoming entangled in moving parts.

"The Seven Deadly Sins" is available at a nominal cost to cover handling from the Ontario Safety League, Film Library, 409 King St. W., Toronto, M5V 1K1. Phone: (416) 362-1516.

MILL POND GOOD FOR SKATING

With cold winter days and nights, the Mill Pond has become an over-sized skating arena. Many children have made good use of the natural ice surface during the past sunny, crisp weekends.

Well done, chaps!

No group of people is more deserving of a word of commendation for their volunteer efforts in the sports field than those who direct the fortunes of the Stirling Minor Hockey organization in particular, and any minor hockey group in general.

Anyone who has had any association with any minor sport organization knows that long hours of unpaid time, either financially or otherwise, are involved. There is a certain satisfaction in knowing you have helped young people enjoy their leisure time, but that is where it usually ends. If there is involvement with the all-star teams, and some type of championship is won, there is more feeling of accomplishment, but titles compared with total participation are a small percentage.

Minor league hockey teams require coaches, managers, officials of various types, transportation to and from town games, and of course support at the gate. The latter, especially for later-stage playoff games, usually comes from the parents, but that is expected.

From the comments about last Saturday's series of local league and exhibition games, it was a most worthwhile effort. Even more so when you consider it was all put together, basically, between Friday and Tuesday. This says a lot for the contact and organizational ability of the people concerned.

To those who have been involved with hockey that requires some very early rising on Saturdays, as well as other days, and also some very late nights on occasion, let's lift our hats to them for carrying the torch now. Usually parents are the ones most involved, and as the children move up, and/or out, new personnel comes with new players. Then it will be their turn to be applauded.

Licence Laziness?

One fact of human nature that never ceases to amaze us, as well as others, perhaps, is the attitude many have towards purchase of their annual licence plates, especially those for automobiles.

Every year one can expect to lengthening lineups as the February 28 deadline approaches, notwithstanding that the plates have been on sale in recent years since the first of December. Why it takes anyone three months to scrape up the rough equivalent of two days' pay, when it is something that is known that has to be done, escapes reason.

At last count between two hundred and three hundred plates had been sold in Stirling, which represents about four per day since they went on sale. Local officials estimate for the last two or three weeks prior to February 28, the sales will increase to about 150 per day. This means that it will take three minutes for each sale, assuming that all the required information is filled in properly and legible. Should you have to leave the line for some small detail, that would add more time to the project.

One opinion expressed is that because it is a government that is receiving the money, people have a hatred of giving the money early. This is a ridiculous excuse. The amount of interest the government would receive on any licence amount is so infinitesimal as to be disregarded. Were the cost of licences several hundreds of dollars, or perhaps thousands, this might be a valid argument, but for between \$30 and \$40, it certainly is not.

Maybe Stirling area residents feel standing in lineups for hours is better than parting with their money early. At today's rates of pay, that time would be better spent at work. Think about it. Even better, buy your licence within the next couple of weeks, and be finished in perhaps five minutes or less.

A birthday party took place at the home of Mr. and Mrs. George Watson, Wellman's last night, January 23rd, members of the family gathered to do honour to Mr. Watson. During the evening Mr. Leslie Thompson, on behalf of the family, presented Mr. Watson with a purse of money to be used in the purchase of a Masonic Past Master's Apron. Mr. Watson very graciously thanked the donors for their gift and the spirit that prompted it. The guests included Mr. and Mrs. Leslie Thompson, Mr. and Mrs. Thomas Johnson and Duane, of Harold, and Mr. and Mrs. Lorne Watson.

Few people will contest the opinion that it has been a cold January. While it has not been unusually cold for this time of year, there has been one unusual aspect—despite lots of sunshine, there has been no snow.

The construction of the transmitting tower in connection with the new Provincial Police Communication System on the farm of Walter Lindenfeld, Oak Lake, was completed on Monday. The tower is 200 feet in height and was erected by a steel company from Welland, Ont. It is expected that the necessary equipment will be installed shortly.

At the close of the meeting of the Board of Education on Monday night the members and their ladies were entertained at the home of Mr. and Mrs. C.J. Hutton. Dainty refreshments were served and a social hour enjoyed.

River Valley Women's Institute presented a most successful dance in the Stirling Community Hall on Tuesday night. The Teen-Agers' Orchestra provided splendid music for a large crowd of dancers and a most enjoyable evening was had by all. The proceeds will be used to provide food parcels for Britain.

In the Methodist Church next Sunday morning the pastor will begin a series of morning-discussions on "Character Building." The initial question for discussion will be "Is it ever right to lie?"

It was announced on Saturday last that the Bank of Montreal had taken over the business of the Sovereign Bank in Stirling, and shortly afterwards the word came from Montreal that Mr. Howson had been appointed manager. Mr. Howson has been in receipt of many congratulations from his friends, who are confident that the Bank of Montreal is a wise choice. We are informed that the business will be carried along without any change, and Mr. Howson will be pleased if the depositors will call and exchange their Pass Books to Bank of Montreal Pass Books on the same terms.

Weekly Meditation

CONTRIBUTED BY STIRLING CLERGYMEN

(By Rev. J.F. McGarvey)
The word "vocation" means call. Scripture tells of the Commitment of many people who have been called by Almighty God to be His messengers to mankind.

One such call is recorded in Samuel 3:10, 19. The story is told very literally describing how Samuel actually heard the voice of God, but at first he thought it was his "master" Eli who was calling. After several such calls, it was Eli who recognized that it was the voice of God. Eli told him to reply thus: "Speak, Lord, your servant is listening." The narration continues to say that Samuel grew up and the Lord was with him and let no word of his fall to the ground.

John the Baptist was another Great Spiritual Leader who was called by God even before his birth. His was to be a very special mission; to prepare the way for the Lord.

In John 1:35-42 there is narrated the story of Jesus calling men to be his followers. At that time: As John stood with two of his disciples, Jesus passed, and John stared hard at him and said, "Look, there is the lamb of God." Hearing this, the two disciples, followed Jesus. Jesus turned around, saw them following and said, "What do you want?" They answered, "Rabbi," which means "Teacher."

"Where do you live?" "Come and see," he replied; so they went and saw where he lived, and stayed with him the rest of that day. It was about the tenth hour. One of these two who became followers of Jesus after hearing what John had said was Andrew, the brother of Simon Peter. Early the next morning Andrew met the Christ - and he took Simon to Jesus. Jesus looked hard at him and said, "You are Simon son of John; you are to be called Cephas" - meaning Rock.

LETTERS TO THE EDITOR

Dear Sir:
As a lifetime supporter of Minor Hockey in Stirling, I would like to express an opinion on some items of concern to me, as well I am sure, to many other concerned fans. We have all noted the gradual face-lifting our arena has had in recent years, and these improvements are certainly appreciated. However, one obvious potential hazard I have found in the building is the lack of properly marked exits. In the event of an emergency evaluation of the rink, this could pose a serious situation.

Stirling has always had very competitive hockey teams, and this year is no exception. Fan support has gradually strengthened, and with a few slight increases even more. For example, we have heated upstairs facilities in our arena, but these do not seem to be available to supporters. There are many Senior Citizens in this Village and surrounding rural areas who love the game of hockey and would readily support our teams, but they are unable to cope with the cold and "standing - room only" situation, as we younger people can. If the upstairs portion of the building were made available to these people, the gate receipts would be enhanced, and our Minor Hockey teams supported as they deserve to be.

I realize that lack of interest and finances are the main reasons for this situation, but perhaps it is time that we again rally, get on the bandwagon as was done in the past, and try to improve our arena still more, and build support for sports in Stirling. These young athletes are giving it their best, for our benefit, as well as their own, and finer entertainment is hard to come by. Since our Village is steadily growing in size, and with new schools approaching, the present state of our community arena will soon be inadequate.

I appreciate this opportunity to express my opinion through your paper, and remain
Yours sincerely,
Murray Wannamaker

FARM NEWS

The end of 1972 brought two staff changes to the Stirling office of the Ontario Ministry of Agriculture and Food. The first change concerns the Home Economist, Miss Jean M. Scott, Supervisor, Junior Extension, for the Home Economics Branch has announced the appointment of Miss Kate Ann Wahl as Home Economist for the County of Hastings.

Miss Wahl's home is in Toronto. She is a graduate of North Michigan University. She succeeds Mrs. F. Elaine Struthers who resigned from the Ministry effective the end of December. Miss Wahl commenced her duties in mid-December and is already conducting 4-H Homemaking Leaders Training Schools.

The second change concerns the Extension Assistant. At the end of December Ray Pender, who was serving his 5th year on the county staff, resigned to return to the home farm in Renfrew County, Ray is entering a Father-Son Partnership which is quite typical of many of the arrangements now occurring in Hastings County. On January 9, 1973, Mr. A. G. Bennett, Director of Extension announced the appointment of John J. Paul as Extension Assistant for the County of Hastings. Mr. Paul comes from Almonte. He is a graduate of Kemptville College of Agricultural Technology. Since graduating he has worked at Kemptville College

A program of variety and interest is planned for the United Church Women of Belleville Presbyterian and their friends when they hold their annual meeting on Thursday, Jan. 25th, at Trinity United Church, Napanee. Of special interest is the guest speaker, Rev. Joseph Price, who will speak in the morning on "The Spirit of Saskatoon." Commissioners who came back from Saskatoon talked about this spirit that pervaded General Council. Now we will learn more about it.

Rev. Joseph Price, B.A., B.D., S.T.M., is well known to residents of the Tweed district as he spent his younger years at Actinolite. The son of a United Church minister and veteran of World War II, he has worked as a lumberman, surveyor and businessman before entering Queen's University. In 1963 he graduated from Queen's Theological College and three years later from Union Theological Seminary, New York City. Mr. Price served on several charges in Belleville Presbytery before being appointed to his present position of Executive Secretary of Bay of Quinte Conference, in 1971. He is married and has three children.

The theme of the annual, "God in Our Midst," is in line with Mr. Price's subject.

Keeping it clean

with Bill Dodds

The Chicksaw Environmental Association in Memphisto recently ran through a novel experiment in pollution control.

They chose three streams and fed 1,000 milligrams of Vitamin C to one, 500 grams of aspirin to another and an inert placebo to a third.

After 50 days, samples from each stream were tested and no change was noticed in any of them.

I have a feeling the whole operation was tongue-in-cheek, because the group's conclusion was, "river pollution may be harder to cure than the common cold."

It almost looks like the silly season is upon us, because another U.S. group announced the results of playing with auto statistics.

A motor vehicle survey in the states revealed that each car on the road in 1940 contained 3.2 people. In 1950, that had declined to 2.1, and by 1960 to 1.4.

By projecting this decline rate to 1980, they reached the conclusion that every third car on the road will have nobody in it.

However there are still some people who are turning their imagination to serious work. The U.S. national highway research program has financed a study on the potential use of domestic and industrial waste as aggregate for road construction.

The sheer bulk of aggregate needed for North America's massive highway programs makes the idea of using waste attractive, and zoning restrictions, rising land values and pollution controls are cutting into existing sources of aggregate supply.

Over the next year or so, a Pennsylvania firm will study the possibilities of using such things as incinerator ash, mine tailings, refinery slag and boiler slag for road construction.

Since road construction and waste are usually both heavily taxed in heavily populated areas where conventional aggregates like gravel are in short supply, the study has interesting possibilities.

IN MEMORIAM

HOLLAND - In cherished
memory of Ross Holland who
passed away on Jan. 27, 1970.
His toll is past, his work is
done,
He will be fully blessed,
He fought the fight, the vic-
tory won,
And entered into rest.
Ever remembered and
sadly missed by wife, child-
ren and grandchildren. 4-1

MONTGOMERY - In loving
remembrance of a beloved
husband, father and grand-
father, Duncan A. Montgomery
who passed away Jan. 22nd,
1970.
Resting where no shadows
fall,
In peaceful sleep he awaits
us all.
God will link the broken
chain
When one by one we meet
again.
Always remembered by
his wife Nellie and family. 4-1

RODGERS - In loving memory
of a darling husband and fa-
ther, Arthur Harold Rodgers,
who passed away January 29,
1958.
He left us quietly,
His thoughts unknown,
But left us a memory.
We are proud to own:
So treasure him Lord,
In your garden of rest,
For when on earth
He was the best of the best.
Loved and remembered
forever by wife Nancy, sons
George and Robert, daughter,
In-law Virginia and grand-
children. 4-1

In loving memory of our
father, Arthur Rodgers, who
departed this life Jan. 29,
1958 and Foster Gonsulvis,
June 18, 1972.
Fathers who gave us the
best of their lives.
Who cherished our secrets,
Our sorrow, our strife,
Who taught us to love and
taught us to pray,
Oh fathers in Heaven, God
bless you today.
Your lives were unselfish
for others you lived,
Not for what you received,
But for what you could give.
Just a loving thought, just a
silent tear.
A beautiful memory of our
fathers so dear.
Dear God, take a message
to our fathers above.
Tell how we miss them and
give them our love.

Local news badly needed

One feature we feel missing in the Stirling News-Argus is that list of local happenings, which we receive in abundance from our correspondents in the rural areas, but seem to be lacking in town.

Such things as family visits home on the weekend, or visiting relatives in other centres, are the type of news we mean in particular. There may be some person, probably a woman, who would like to do this type of work, and if so, we would like to know who she is.

Perhaps there is a man who would like to try his hand at this work, or perhaps a woman who would like to do this type of work, and if so, we would like to know who she is.

Games were led by Akela. Sing-along followed, led by Bagheera.

Everyone is welcome to come to the following:

On Feb. 4, 1973 there will be a special church service at which the four Cub leaders will assist Rev. W.C. Cox at each of his churches on the weekend. Pastors of churches, all interested readers are invited to attend.

On Tuesday, January 23, the Rangers met at the home of Debbie David, they spent an interesting evening doing B.B. Q. dyes and a meal which Mrs. David served refreshments.

Tuesday, January 30, they were invited to attend the Girl Guide Company for an enrolment.

On February 24 and 25 the Rangers will be attending a fun weekend with the 1st Belleville Rangers at camp.

If any girls between the ages of 14 - 18 would like to join, please contact Mrs. D. Blackhall, 52 Front St. W., Phone 395-3603.

Hastings meet Tuesday nights 7:15 to 9:30 at the home of Mrs. I. David.

Ellis wants

loan limit up

Following a strong attack on the Industrial Development Bank in his maiden speech in Parliament on Tuesday, January 16th, Jack Ellis, M.P., Hastings brought before the House of Commons a motion to increase the limit of small business loans from \$25,000, to \$75,000, to-day.

Speaking to the motion, Mr. Ellis said that the main reason for bringing forward the motion was to allow a different avenue for small businessmen who need capital to establish or expand a business. In this modern day, \$25,000, which is the maximum now allowed under this legislation, is not enough to allow for any significant business expansion, he said.

Loans under the act may be used for any type of business. Rural general stores, vacation resorts, lumbering, motels, garages, cleaning establishments, are a few of the usual uses.

The Industrial Development Bank which Mr. Ellis pointed out, takes far too long to approve or deny loan applications could now be challenged in a much larger way by the Chartered Banks if this legislation passed.

The boys gave Mr. Wolf a very good examination.

Games were led by Akela. Sing-along followed, led by Bagheera.

Ellis wants

loan limit up

Following a strong attack on the Industrial Development Bank in his maiden speech in Parliament on Tuesday, January 16th, Jack Ellis, M.P., Hastings brought before the House of Commons a motion to increase the limit of small business loans from \$25,000, to \$75,000, to-day.

Speaking to the motion, Mr. Ellis said that the main reason for bringing forward the motion was to allow a different avenue for small businessmen who need capital to establish or expand a business. In this modern day, \$25,000, which is the maximum now allowed under this legislation, is not enough to allow for any significant business expansion, he said.

Loans under the act may be used for any type of business. Rural general stores, vacation resorts, lumbering, motels, garages, cleaning establishments, are a few of the usual uses.

The Industrial Development Bank which Mr. Ellis pointed out, takes far too long to approve or deny loan applications could now be challenged in a much larger way by the Chartered Banks if this legislation passed.

Plan Public Meetings To Plan Hydro Route

Rural residents are going to become computer programmers to assist Ontario Hydro in the selection of a power corridor that will link Lennox generating station near Napanee with the rest of the province.

Municipal politicians began the process last week by filling out data charts on which they ranked objectives to be sought in the \$100-million project.

The officials, from Murray to Richmond Township, were being introduced by Hydro's revamped planning process that should yield a 610-foot wide corridor by June 1st. A three-hour meeting in Belleville was dominated by experts from Commonwealth Associated Ltd., the Jackson, Mich., consulting firm that has been hired to produce an environmentally sound route for the utility's 500-kilovolt transmission lines.

The meeting was the first step in a four-stage program to produce a corridor. Townships were asked to join each other as hosts for public meetings where individuals can present their views and fill out the programming charts.

Already, dates have been there anything I can take up my age that would help in the near future?

Dear D.W.: If you have a practical financial problem, you're going to have to deal with it practically. You need to start with what you have and try building on it. For example, your experience as a bookkeeper should be the base from which you operate. Have you really looked into the job possibilities in your community? Or have you decided in advance that all the doors will be closed to you? Anyone who looks for work, convinced that he isn't going to find a job, usually doesn't find one. You need to explore all the job opportunities in your vicinity. Answer the ads, go out on interviews, etc., in order to get a better idea of the possibilities. Why not get out there and find out what's really going on?

GROWLING AND SNARLING
Dear Margaret Brookfield: I recently visited my cousin and his wife. She's 55 and having an absolutely hellish time of it. After seven children, I guess she feels this is something that will also go away in nine months. She used to be such a sweet, quiet woman, but now she has become to growl, snarl and dissolve in tears of defeat. She's so terribly nervous and desperately needs some kind of assistance. I wish there was something I could do to help.

R.I.A.
Dear R.L.A.: It's always difficult to try and help others without seeming to meddle and being thought of as an interfering Mrs. Fix-it. You might however take her husband aside and suggest that if he thinks she might need some medical help at this point, you'll be glad to go to the doctor's office with her.

Last year 102 volunteers at The Canadian National Institute for the Blind, Toronto, transcribed 295 books from print into braille on subjects ranging from astrology to knitting. One book takes an average of 90 hours to transcribe. The training program for braille consists of one class a week for six months. At the end of the course there is a test and upon completion of 100 pages of braille with six consecutive error-free pages, a certificate is awarded to the volunteer.

the Second Forty by Margaret Brookfield A FORUM ABOUT MATURE WOMEN

WHEN A MOTHER DESERTS

Dear Margaret Brookfield: I'm 25, married and have two small children. There's been a lot of trouble in our family since my mother decided to walk out on us, deserting my father and two younger sisters. That was four years ago. It rocked us all very badly. As a result, there has been much turmoil ever since. Everyone, more or less, has gone his separate way. I still have considerable difficulty in sorting out my own feeling about my mother. Maybe she felt threatened by the onset of middle age. But I do believe she could have handled the situation differently and better. In my way though, I'm fortunate. This last year for me has been a time of self-discovery, of accepting and finally beginning to settle into the role of housewife and mother. I'm also learning to like myself a little more. I married a very special guy and

he's continuing his education, so our future looks really good for a change.

H.P.
Dear H.P.: While settling into the role of housewife and mother yourself, you might benefit in some ways from your mother's unhappy experience. You might give some thought as to what your own middle years will be like when your small children grow up. Coming to terms with the present is extremely important. But it's not too early to think about your future. You might consider developing some special skills or interests to enrich your own middle years.

ONE OF THE LUCKY ONES

Dear Margaret Brookfield: I had a complete hysterectomy when I was 40, nearly 15 years ago. At that time, my doctor prescribed estrogen and I've been taking it ever since. Everyone, more or less, has gone his separate way. I still have considerable difficulty in sorting out my own feeling about my mother. Maybe she felt threatened by the onset of middle age. But I do believe she could have handled the situation differently and better. In my way though, I'm fortunate. This last year for me has been a time of self-discovery, of accepting and finally beginning to settle into the role of housewife and mother. I'm also learning to like myself a little more. I married a very special guy and

R.O.
Dear R.O.: Estrogen, which is often prescribed for women who've had their ovaries removed, as part of a hysterectomy, can help, of course. But what a woman does with her life is equally important. You're one of the lucky ones because you understand this clearly. And you know how to allocate your time productively for your own satisfaction. As for your smooth skin and few grey hairs, heredity does play its part in that; so you might give your ancestors some credit too.

BE PRACTICAL
Dear Margaret Brookfield: My husband had a heart attack last month and may not be able to work again, at least not enough to make a living for both of us. I'm 53 and haven't worked for 15 years. I live in a small town where "shop" work is all I can get without any training. I used to do bookkeeping, and machines are all the going thing now and I don't have a chance of getting into any place here. I have no financial means of going back to school. Even if I did, it would require a trip of 60 miles a day to get to the nearest educational facility. Is

lined up, with Sidney, Thurlow and Frankford holding a forum Feb. 15th in Sidney Township Hall. Huntington, Hungerford and Rawdon will get together Feb. 22 in Ivanhoe and Richmond and Tyendinaga have set Feb. 8 as the date for a meeting in Melrose.

The charts themselves are relatively uncomplicated, particularly since Commonwealth is providing facilitators to familiarize people with the problems of drawing an acceptable line through farmers' field, around towns and over rivers.

One form asks individuals to rate the relative importance of such factors as ex-

cost of \$90,000, will gather landscape information, feed it into a computer with the opinion polls, and turn out two or three possible corridors, each about 2,000 feet wide.

The selections will then go back to the public for more reaction before a final route is chosen.

"I don't know that it's all that different an approach from what they had before," commented Sidney Reeve, Gordon Wilman, after the meeting. "We didn't get many people out then."

Thurlow's deputy reeve, Garnet Denyes, was more cautious.

"I think they should talk to people whose land it's going to be crossing," he said. "It's fine to talk to me but I know I'm not going to be affected."

He predicted the public meetings would grow in numbers after routes have been proposed.

Another research firm, Canadian Facts, is also at work in this area conducting an analysis among the rural population of opinions about the Hydro line.

Hydro was forced to abandon its original approach when the provincial government appointed Dr. Omond Solandt last summer to conduct hearings into another right-of-way project in western Ontario.

He suggested a more systematic approach be adopted in the selection procedure, one that would obtain opinions from all segments of the community and make a full environmental appraisal available to any interested party.

Hydro held another meeting in Port Hope for officials from Brighton Township to Oshawa. They hope to have the line in operation by 1975, the original target date.

River Valley meeting

(By Mrs. Percy MacMullen)
River Valley Women's Institute sponsored a Senior Training Course in January on the theme "Ontario Fruit". It was held under the direction of the Ontario Department of Agriculture and Food, Home Economics Branch.

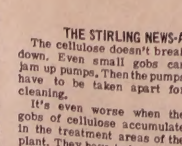

The leaders were Mrs. Vernon Harry and Mrs. Ernest Carr and there was an average attendance of 17 ladies. The meetings were held at the Institute Centre for three evenings, Jan. 8, 17 and 22. The final summary day for all the groups in Hastings County will be held on the afternoon of January 31 in Ivanhoe Hall. At the close of each session the food dishes that had been prepared were sampled by the group in attendance.

The subject covered fruit production in Ontario and how that there is controlled storage apples are available all year long. In order to follow Canada's Food Guide everyone should have two servings of fruit daily. The selection of fresh and frozen fruit and their care and storage was explained in detail. Fruit can add color and interest to the main dish and several good ideas were presented in the text book, one of which was "Add a can of drained peaches and two tablespoons of brown sugar to a can of pork and beans, and heat."

On January 8, the Spicy Peach Halves and Hot Mulled Cider was chosen for the demonstration. On the 17, Applesauce Meat Loaf and Mixed Fruit Salad and on the 22, Cherry Coconut Delight, and Apple Strudel. All of these various foods were most delicious and very easy to prepare.

The text book contained an assortment of 50 recipes using fruit and also a list of fruits in Ontario and around the world. The group brought along their own special recipes for exchange. With the excellent quality and ready availability of fruit in Ontario it is easy to see why fruit is one of our most popular and versatile foods. Fruits of all kinds have always held an important place in the diet since the beginning of time and they are still very important.

Those in attendance at the sessions were Mrs. Vernon Harry and Mrs. Ernest Carr, leaders, and Mrs. Roy Tucker, Mrs. Percy MacMullen, Mrs. Paul Sorensen, Mrs. Claire Knight, Miss Alice Heasman, Mrs. Ken Morrow, Mrs. Merritt Wood, Mrs. Gerald Grills, Mrs. Kenneth Sager, Mrs. George Grills, Those attending parttime were Mrs. Harold Bush, Mrs. David Sager, Mrs. Harry Morrow, Mrs. Gerald Brooks, Mrs. Robert Hoard and Mrs. G. Davies.

Keeping it clean

with Bill Dodds

I want to approach you, especially those who have new-born children-on maternity leave. Some of the conveniences offered to young parents are causing problems here and there.

Some disposable diapers carry misleading trade names, names like flush-away and others. Now if that's what's on the package, you expect, that when you change the baby, to dispose of the soiled, wet diaper the obvious way. You take it to the bathroom, drop it in the bowl and push the lever to flush the problem away. Right?

Wrong! You may be rid of the problem, but your neighborhood sewage treatment plant isn't. The diaper can get caught on a burr or a root in a sewerage line and cause a blockage. If it's bad enough, the sewer backs up.

Public works and sewage treatment engineers discussed the problem at the conference not too long ago. They said women are the worst offenders.

But it's not a woman's fault if nobody tells her otherwise, they concluded. There's just no need for it. If you use disposable diapers, you can put them out in the garbage after rinsing them. The engineers were even more concerned about cellulose tampons-in particular cigarette filters and tampons.

Merrie Bowlers

Everyone got into the swing of it, that is bowling, this week, meaning that all teams scored. Mildred Fraser's Dingalings rang up 3 against Isobel Hutcheon's Bells who boasted 4. Bessie Hewton's Dingbats got 5 points, leaving Lorna Wrightman's Meatheads with the other 2.

Ruth Glover captured both high single and high triple at 268 and 608. Other over 200 games were rolled by Helena Costing 224; Mildred Fraser 226; Isobel Hutcheon 211; Tillie Prest 206; Betty Hubble 224.

There is a fight for the high average going on right now. Barb Noble and Helena Costing are tied at 178 and Betty Hubble is only one point behind. Somebody's got to make a big move or the bell ringers may have triplets.

Team standings are Dingbats 79, Meatheads 64, Bells 63, and Dingalings 46. Mildred Fraser's thinking of buying a good, You Dingalings had better watch it.
